PROFILE

DevOps Engineer with hands-on experience in AWS, GCP, Docker, Kubernetes, Terraform, and CI/CD. Skilled in automating deployments, managing cloud infrastructure, and monitoring applications with Prometheus and Grafana. AWS Certified Cloud Practitioner and Oracle Cloud Infrastructure Certified DevOps Professional, focused on building reliable and scalable systems.

CERTIFICATIONS

- AWS Certified Cloud Practitioner - Amazon Web Services
- Oracle Cloud Infrastructure 2025 Certified DevOps Professional - Oracle
- Python for Data Science - NPTEL

LANGUAGE

- ENGLISH
- HINDI

PROJECT

Chittrbox – Real-Time Chat App | MERN, Docker, Kubernetes, Jenkins, Nginx

- Containerized and deployed a MERN chat app on Kubernetes with JWT and Socket.io.
- Automated builds and deployments using Jenkins CI/CD and Nginx.

[GITHUB](#)

Django Notes App - Django, React, Docker, Jenkins, Nginx

- Built and containerized a full-stack Notes app using Django and React.
- Automated deployment with Jenkins and configured Nginx as a reverse proxy.

[GITHUB](#)

DevSecOps Platform - React, Go, PostgreSQL, Docker, Kubernetes

- Built a containerized full-stack application using Docker Compose and multi-stage builds.
- Used Docker Scout and Docker AI to improve container security and efficiency.

TECHNICAL SKILLS

- Cloud: AWS (EC2, EKS, VPC, IAM), GCP
- Containers: Docker, Kubernetes, Docker Compose
- CI/CD: Jenkins, ArgoCD, GitHub
- IaC: Terraform, Ansible
- Monitoring: Prometheus, Grafana
- Networking: Nginx, VPC
- Languages: Python, Bash
- Tools: Git, Linux

EDUCATION

Master of Computer Applications (MCA)

The NorthCap University

2024 – 2026

Bachelor of Computer Applications (BCA)

GD Goenka University

2021 – 2024
